## Got Gold in your Portfolio?

**Ian Gordon "the Long Wave Analyst" will be presenting his Long Wave Economic Forecast at an Invitation Only Luncheon Presentation.**

In November 2007, Ian published an edition of *The Long Wave Analyst* simply entitled *This Is It!* The opening paragraph read as follows:

*"This is it. The Kondratieff winter is now underway in earnest and nothing can stop it. The huge credit expansion initiated by the Maestro, the past Federal Reserve Chairman, Alan Greenspan, has now reversed. The ensuing credit contraction will be devastating. It will take down creditor and debtor alike and will result in a destructive and frightening deflationary depression."*

Because *This Is It!* was published in November 2007, its predictions should have at least been evident throughout 2008. Let us review the major predictions made in that publication and verify their accuracy:

The credit contraction "will take down creditor and debtor alike." There can be no disputing the facts.

The credit contraction "will result in a destructive and frightening deflationary depression." OK, so some of you may not be convinced by depression and deflation. But you must believe that the 'so-called' recession is as bad anything experienced since WW2; and that prices are in a free fall.

*"This huge monetary expansion perpetrated by the Federal Reserve has contributed to the biggest speculation in every conceivable asset category and has been accompanied by unprecedented hubris, greed and outright fraud." The chickens are coming home to roost.*

**Ian was quoted numerous times as stating that a combination of the global housing bubble, combined with a derivatives collapse would thrust the global economy into its current state.**

**Ian's Long Wave Theory can now assist us with taking the correct steps, and teach us how to read the signs to protect and capitalize from today's market environment, and when to move back into beleaguered asset classes.**

*"I have long viewed Ian as a "mentor", as he is a rare breed in the investment advisor arena... he has long proclaimed that debt would be the undoing of the US banking system and the economy.*

*Given the banking crisis we are now witnessing, his words have taken on a life force of its own and if you care to listen Ian will tell you how it will all end."*

- Eric Sprott, Chairman, CEO, and Portfolio Manager, Sprott Asset Management.

**Ian Gordon will also introduce ATW Gold Corp., the newest gold producer on the TSX Venture Exchange.**
